Built-in microphone unit with channel selector, voting and optional identification
Artikel-Nr.: 05.1291.32/05.1291.32.CH und 05.1292.32/05.1292.32.CH

Application example

Description

DIGIMIC lean+ modular is the multifunctional delegate unit for your conference. Discreetly integrated into the tabletop, it offers the best conditions for your conference topics.

The DIGIMIC lean+ modular has channel selector, voting function and optional identification. The lean+ modular unit is operated via five keys - all settings are visible on the display.

The channel selector transmits up to 32 language channels - original and 31 languages. The DIGIMIC lean+ modular unit is also available with an optional RFID card reader. You can use an RFID card to register and identify all conference topics.

In addition to the delegate version, the DIGIMIC lean+ modular is also available as a chairman version. The chairman version gives special priority to the chairman of a conference. With the override button the chairman can mute all delegate units.

- LxWxH: 368,5x73 mm
- Weight: approx. 360 g

System requirements

Required system components:
- DCen32
  Article no.: 05.0050
- DCen32 mini
  Article no.: 05.0420

Microphones:
- TMD/01
  Article no.: 01.0711
- TM58/6
  Article no.: 01.0560
- TMD/382
  Article no.: 01.0740
- TMD/CL
  Article no.: 01.0750

(all microphones are available in different lengths)

Other components:
- DExt
  Article No.: 05.0025
- DDol
  Article no.: 05.0750
- RFID card
  Article no.: 16.3870

Software:
BrählerOS conference software for network-based control of all DIGIMIC system components. Simple configuration of all delegate units from one central location.
