### Single Earphone EPD45

BRÄHLER ICS is committed to continually improving its products and so reserves the right to make technical modifications without notice.

#### **Description**

The single earphone EPD45 is a small headphone that is easy to wear and convenient to carry. It has an automatic signal shut-off to prevent acoustic feedback. The audio is turned off when you remove the earphone and tilt it horizontal.

The EPD45 is easy to clean. The part that comes into contact with the outer ear, is easy to separate from the housing without tools and can be cleaned with wipes or swabs.

The connection cable is optimally protected by the strain relief and the bend protection.

The EPD45 can be worn comfortably even during long periods.

#### **Technical Data**

Corresponds to intern. standard IEC60914

Transducer principle: dynamic

Frequency response:  
100 Hz - 15,000 Hz

Impedance: 32 Ohms

Max. power consumption: 0.4 W

Distortion factor: <1% (1 kHz / 100 dB SPL)

Cable length: 1.5 m

Connector: jack plug 3.5 mm angled

Color: beige gray / graphite gray

Weight (incl. cable): 56 g approx.
