

brählerOS Operating System

smart Conferencing for *DIGIMIC*

brählerOS and Admin-Tool Component

Included in Single Conference Licence (OS.0100); Multi Conference Licence (OS.1000); Conference Licence (OS.0001.E)

Description

The Brähler Conference Operating System (brählerOS) is a sophisticated operating system optimised for conferencing. brählerOS with its individual application components and delegate app provides the ability for all kind of conferences to be maintained cost-effectively over time. Its software architecture is perfectly adapted to the DIGIMIC hardware.

It manages DIGIMIC® conference hardware and smart Conferencing software resources and provides common services for conferences and events.

brählerOS can be thought of as an conference brain, a highly intelligent operating system that manages and controls complex, distributed network resources and functions of your conference applications.

It gives you the possibility to manage all activated software component configurations, such a single or multi PC-, stand-alone or network based installations.

Features

Setup

Activates/Deactivates components on the local installation.

Webserver

Central file storage for all conference related files, such as pictures, documents, videos, etc.

Database

The Database server stores and facilitate all conference data and information from one place, making this information available everywhere it is needed.

Admin Tool

The Administration Tool configures all conference specific contents, like rooms, seats, participants, conferences, etc... saving those configurations in the database.

Diagnostic

Displays events regarding system health and status.

System Update

Any system updates will be executed by one single file, including all installed software components and multimedia apps

System requirements

Server Application

- Windows 10 / 64 Bit
- Processor: Intel i5
- RAM: minimum 4 GB
- Free disk space: System: minimum 200 MB / plus according disk space for data
- Network connectivity: at least 1 Gb/s

Single PC Application

PC with Windows¹ 7 / 10 (64 Bit) LANconnection

Supports

Admin-Tool Component (A.-No.: OS.0005)
 MicControl (A.-No.: OS.0020)
 CamControl (A.-No.: OS.0500)
 Digivote (A.-No.: OS.0150)
 TimeControl (A.-No.: OS.0200)
 IdentControl (A.-No.: OS.0300)
 Special Keys (A.-No.: OS.0600.Project No.)
 Delegate App (A.-No.: OS.0050)

Supported Central Control Units

DCen (8 audio channels)
 Article no.: 05.0010
 DCen (32 audio channels)
 Article no.: 05.0050

DCen mini
 Article no.: 05.0410
