Description

The new **CMic ONE** offers you improved technology in a slim design.

The **CMic ONE** allows cost-effective cabling with RJ45 connectors, which also allows faster installation. A new circuit design reduces power consumption and allows more microphone stations to be connected to a DIGIMIC central unit.

With the new **CMic ONE**, conferences be can conducted optimally.

The **CMic ONE** has integrated loudspeakers for decentralized sound reinforcement, which automatically switch off when the microphone is activated.

The **TM58/6** or optionally the **TMD01** microphone is included in the scope of delivery.
